Dinner

Specification needed to participate in the Webinar

Here is what everybody needs at the remote location in order to join the web video conference and interact during the session.

1. Computer with good internet connection
2. Microphone and speakers.
3. Web cam to view each other.
4. A projector to project the computer image on a screen/wall if there multiple people in the video conference.

Please pass on my phone number to the remote users so they can call me and ask me any questions if they have.

Thanks

Balaji
